## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. Applicant's prior art citation filed January 16, 2004 has been received, considered and placed of record.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Regarding claim 1, "a first support member", and "a second support member" are not clearly described in the Specification. See claim 11 for the same informality.

Regarding claim 8, "a first portion" and "a second portion" recited in lines 4-5, are not clearly described in the Specification. See claim 18 for the same informality.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are replete with informalities too numerous to mention specifically. The following noted informalities are merely exemplary thereof. The claims should be revised to conform to U.S. Patent Office practice.

Claim 1 is vague and indefinite because there is no clear or proper antecedent basis for "the first support member" and "the second support member". See other claims for the same informalities.

Claim 4 is vague and indefinite because "first support members" recited in line 2, renders the claim unclear.

Claim 8 is vague and indefinite because "second support members" recited in line 2, renders the claim unclear.

Claim 8 is vague and indefinite because "the frame member... oppositely disposed second support members" recited in lines 3-7, renders the claim unclear. See claim 18 for the same informality.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-20, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Toetschinger et al. (U.S. Patent No. 6,158,673).

Toetschinger et al. teach an apparatus for supporting a hand-held liquid dispenser comprising a first support member for receiving a nozzle (see Fig. 4), and a second support member for holding container (see Fig. 5). The first support member is defined by a platform, having a cavity for placement of a dispenser nozzle therein (see Fig. 4). The dispensing apparatus further includes a frame member (100, 102 and 123).

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Spriggs et al., Owen, Hicks et al. and Toetschinger et al. ('836) are cited of general interest.
